About the project

Since the world has become a "global village", we need to create cultural awareness. Youngsters should recognise and understand that we all have different values shaped by our diverse cultural backgrounds. What we consider to be 'normal' behaviour in one country can be entirely different in another. Therefore, we should help youngsters to develop understanding of other cultures. This project has been generated with the aim of creating cultural awareness and improving English language skills through Web2 tools.

to develop understanding of other cultures

- to build respect and empathy for other people
- to embrace cultural differences and celebrate differences as well as similarities
- to get our students to familiarize with Web2 tools
- to improve students' English language skills
- to improve sensitivity for cultural values

Expected results

Ss will be able to embrace cultural differences and show respect and empathy.

Ss will be able to learn much more about other countries from their peers.

Ss will be able to improve their language skills.

Bridging Cultures

Turcia, Romania, Spania si Croația au realizat in cooperare proiectul etwinning " Bridging Cultures". Scopul principal il reprezintă cooperarea și constientizarea diferențelor culturale , înțelegerea si acceptarea lor si folosirea limbii engleze intr-un mod constient. De asemenea, instrumentele de lucru, web 2.0 tools, imbunătățesc elevului creativitatea și-l integreaza intr-o societate moderna.
